PROFESSIONAL SUMMARY

Data Science undergraduate and aspiring Machine Learning Engineer with hands-on experience building end-to-end machine learning and deep learning solutions in Python. Skilled in SQL, Scikit-learn, TensorFlow, data preprocessing, feature engineering, hyperparameter tuning and model evaluation. Completed four AI and Data Science internships and built multiple real-world AI applications.

EDUCATION

Bachelor of Science in Data Science | University of Agriculture Faisalabad (UAF), Pakistan *Expected June 2028*

TECHNICAL SKILLS

Languages: Python, SQL, R, HTML, CSS, JavaScript
ML & AI: Machine Learning, Deep Learning, Computer Vision (CNN, OpenCV), NLP (LSTM), Model Training & Evaluation, Hyperparameter Tuning
Data Science: Data Analysis, EDA, Data Preprocessing, Feature Engineering & Selection, Statistical Analysis
Libraries: Pandas, NumPy, Scikit-learn, TensorFlow, Keras, Matplotlib, OpenCV, Streamlit
Database & Tools: MySQL, Git & GitHub, Jupyter Notebook, Google Colab, VS Code, Microsoft Excel

PROFESSIONAL EXPERIENCE

Artificial Intelligence Intern | WapExp Software House, Faisalabad (On-site) *Jul 2026 - Present*
- Support development of machine learning models that improve predictive analytics.
- Clean and preprocess data with Python and Pandas to improve model performance.

Data Science Intern | Aptura Tech Solutions (Remote) *Aug 2026*
- Analyze datasets with Python and R to extract actionable insights.
- Assist in building machine learning models that improve predictive accuracy.

Data Scientist Intern | CodeAlpha, Faisalabad *Jun 2026*
- Analyzed large datasets to extract insights and collaborated with cross-functional teams to strengthen data-driven strategies.

Artificial Intelligence Intern | Decode Labs (Remote), Faisalabad *May 2026 - Jun 2026*
- Assisted in developing machine learning models and researched emerging AI technologies to support project development.

Web Development Trainee | Muslim Computer College, Samundri *Jul 2025 - Oct 2025*
- Built responsive web layouts with HTML, CSS and JavaScript; used Git for version control and collaboration.

PROJECTS

- **Marketing Campaign Response Modeling:** end-to-end machine learning pipeline predicting customer response to bank marketing campaigns.
- **Deep Learning & NLP:** Apple Disease Detection (CNN), IMDB Sentiment Analysis (LSTM), OCR Text Recognition, AI Recommendation System.
- **Predictive & Data Analysis:** Sales Prediction, Car Price Prediction, Movie Rating Analysis, Unemployment Analysis.

CERTIFICATIONS

- Data Scientist Internship Certificate, CodeAlpha (Jun 2026)
- Artificial Intelligence Internship Certificate, Decode Labs (Jun 2026)
- Professional Web Development Course Certificate, Muslim Computer College, Samundri (Oct 2025)
